DETAILED ACTION

1. Claims 1-11 and 66-76 are pending. Applicant cancelled claims 12-65. The previous rejection is withdrawn pursuant to Applicant's December 20, 2004 Amendment. The associated REMARKS are rendered moot with regards to Swart, US 6,347,306, in light of the following rejection that follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 5, "total funds" is not clear as explicit support for such is not evident from the specification.

Claim 1, last line, "comparison through" is not clear.

Claim 66, line 4, "job based allocation accounts" is not clear as explicit support for such is not evident from the specification.

Claim Rejections - 35 USC § 103

3. Claims 1-11 and 66-76, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Walsh et al, US 6,144,848 in view of Official Notice.

Walsh discloses a wireless computer device that provides real-time management of an account, an account balance and a spending limit, e.g. claim 29. Official Notice is taken that the particulars of the job-based management of a business as recited in the claims, e.g. allocating, adjusting a balance of allocation accounts, comparing, accessing and managing, sans the use of a wireless computer, have been common knowledge in the job-based business art.

To have provided wireless computer based real-time management of an account, an account balance and a spending limit for a job-based management of a business for Walsh would have been obvious to one of ordinary skill in the art. The motivation for providing such would have been to incorporate a wireless computer device to handle the specific account information, e.g. a spending limit, that had previously been done by hand.

4. Further pertinent references of interest are noted on the attached PTO-892.
